# iBVD template (eng)

(this is NOT an iBVD document. It is a template to collect data from sub-suppliers. All registration is done in the iBVD-system (vvsin.vvsinfo.se) by the representative for the product on the Swedish market)

Supplier:

Contact person:

Address:

E-mail:

Phone number:

Date (year, month, day) for filling in the template

# **1** Product information

Product name:

Product description:

Has a declaration of □ Yes performance, in line with the Swedish Construction Products Regulation, been prepared for the product? □ No

If yes, attach the declaration of performance

## 2 Sustainability

Description of the sustainability policy and guidelines:

# **3** Declaration of contents

Type of product:	Chemical product	□ Article/product
Is the article/product an electronic product and covered by the RoHS-directive (2011/65/EU)?	□ Yes	□ No

*If yes*, attach an "EU Declaration of Conformity", or alternatively another certificate that attests that the product corresponds to the requirements according to the RoHS-directive (2011/65/EU), together with the application

If the article/product is an electronic product that is covered by an exemption according to RoHS- directive (2011/65/EU), specify which exemption	Exemptions according to RoHS:		RoHS:
and date (year, month, day) when the exemption expires if time-limited:	Date:		
Does the product contain any nanomaterial that has been purposefully added to achieve a specific function?	□ Yes		□ No
If yes, specify the material.	Material:		
Enter the weight of the product (min/max)	Min	Max	Unit <i>(kg or kg/m)</i>

#### Specify the total content of included substances and material

Included substances and material	EG No./CAS No. (alternatively alloy)	Weight% (of substance in subcomponent)		ents ntual application of non- d classifications)
Enter the percentage of the product has been declared (exact, min-max		Min	Max	Less than
Does the product or any of its subcomponents, if it is a composite product, contain substances with particularly hazardous properties (Substances of Very High Concern, SVHC- substances), which are included in the Candidate List at a concentration above 0.1 weight%?		□ Yes		□ No
If yes, specify which substances:		Substances:		
State the date (year, month, day) fo Candidate List.	or control the	Date:		

The concentration is calculated at component level established on the principle "once a product, always a product". The Candidate List is available at: http://echa.europa.eu/sv/candidate-list-table.

Are all substances reported in percentages down to 0.01%	□ Yes	□ No	
If not, does the report fulfill the instructions for iBVD's declaration requirements	. □ Yes	□ No	
If any deviations from iBVD's reporting requirements exist, specify these in the comments here.	Other con	nments:	
4 Recycled raw material			
Does the product contain recycled material?	□ Yes	□ No	
If yes, specify the material and the percent	ages of the tot	al weight of the pro	duct.
Material Per	<b>centage (%)</b> e total product's	Percentage (%) of the recycled material that has not reached the consumer level, such as production waste, etc. (pre-consumer)	Percentage (%) of the recycled material that has reached the consumer level (post- consumer)
If wood row motorial is included			
If wood raw material is included Can the product be ordered with sustainability	∕ □ Yes	□ No	
certificates for the wood raw material? <i>If yes</i> , state how much of the wood raw mater that is certified (percentage).	ial Percentaç	je:	
<i>If yes</i> , state the certification system (FSC, PEFC) and number.		on system: on number:	
State the country where the wood raw materia was harvested.	al Country o	f harvest:	
Is the wood species or origin in the CITES appendix for endangered species?	□ Yes		D

# 5 Impact on environment – production phase

Has an Environmental Product Declaration	□ Yes	□ No
(EPD) according to EN15804 or ISO14025 been		
prepared?		

*If yes*, enclose the EPD (Environmental Product Declaration) or other environmental product declaration.

*If no*, describe the impact on environment from the production of the product (life cycle perspective).

# Describe the management of packaging for the distribution of the product

State whether any system for taking back or recycling packaging or any other specific return system is used.

Specify the packaging material used and which system of producer responsibility for packaging the supplier is affiliated to.

Enter the proportion of recycled material, if any, included in the packaging.

Other information:

Description of the packaging:

1	Construction phase		
	here any special requirements such as ge conditions etc. for the product during ge?	□ Yes	□ No
lf yes	s, describe:		
	here any special requirements for adjacent ing products because of this product?	□ Yes	□ No
If yes	s, describe:		

### 8 Usage phase

Are there any operating/care instructions for the product?	□ Yes	□ No	
If yes, attach the documentation with the application.			
Is the product energy labelled in accordance with the Energy Labelling Directive (2010/30/EU)?	□ Yes	□ No	□ Not relevant
If yes, state class (G to A, A+, A++, A+++):	Class:		

# 9 Demolition/dismantling Does the product require special measures to protect health and the environment in conjunction with demolition/dismantling? □ Yes □ No

If yes, describe:

#### **10** Waste management Is the product covered by the WEEE-directive □ Yes □ No 2012/19/EU (Swedish ordinance (2014:1075) on Producer Responsibility for electrical and electronic products when it becomes waste? Is it possible to re-use all or parts of the product? □ Yes □ No (can the product be reused within the product's expected lifetime)? If yes, describe: Is material recycling possible for all or parts of the □ Yes □ No product when it becomes waste? If yes, describe: Is energy recycling possible for all or parts of the □ No □ Yes product when it becomes waste? Does the supplier have any restrictions and □ Yes □ No recommendations for reuse, material- or energy recycling or disposal? If yes, specify which:

When the supplied product becomes waste, is it classified as hazardous waste?

🗆 No

*If yes*, specify the waste code, according to Swedish Waste code: waste ordinance (2011:927)
